I feel like I'm stuck, somewhat in a rut  
If no one to care for me  
I've been in this house, don't wanna leave out  
And it's been several weeks

The couples that I see while I'm watching TV  
Tells me what it used to be  
Friends say move on but damnit they're wrong  
And I just need you to know

I was on an ego trip but I changed since  
Never meant for you to get away  
I was listenin' to friends, baby, never again  
I never meant the things I said

If you want me to apologize, I will  
Anything you want me to, I'd do it all for you  
I'm sorry 'cause I broke you down  
Made you cry, girl, I apologize

Started throwing out your things to erase the memory  
But it didn't work at all  
Seeing our pictures in the frame, it's driving me insane  
When I picked up the phone and call

Girl, you are a crucial part in my life  
And I just won't accept this goodbye  
I know I got one shot but girl, you mean a lot to me  
And I can't let you leave

I was on an ego trip but I changed since  
Never meant for you to get away  
I was listenin' to friends, baby, never again  
I never meant the things I said

If you want me to apologize, I will  
Anything you want me to, I'd do it all for you  
I'm sorry 'cause I broke you down  
And made you cry, girl, I apologize

Girl, you mean the world to me

And you are like the air that I breathe, yes, you are  
And now that you're gone  
I can't move on and end it like this  
Hey girl, I need you right here by my side  
Just can make out and I

I was on an ego trip but I changed since  
Never meant for you to get away  
I was listenin' to friends, baby, never again  
I never meant the things I said

If you want me to apologize, I will  
Anything you want me to, I'd do it all for you  
I'm sorry 'cause I broke you down  
Made you cry, girl, I apologize

If I could rewind time  
If I could take back the lies  
If I could rewrite time  
If I could take back the lies

Baby, I love you
