### "More"

She smiles when I say that I'm free on a friday night  
She understands that I'm a man and we met in the  
spotlight  
She chooses to stay by my side even if I gave her a  
Little bit or barely any of my time  
Know that she loves me and now I realize  
That you deserve more than an empty spot on my  
calendar  
When I get back from tour  
( baby you deserve more ) much more  
No more broken promises  
Baby I'll be by your side  
( you deserve more )  
Than a house and the whip that I bought you  
All you really want is my time  
( you deserve more )you deserve more  
( you deserve more, more, more, )
