Havent you heard were not the cream of the crop?
You have got us all mixed up
I am NOT what youve been looking for

Do you like guys who take you out to dinner?
And make you feel like one million bucks?
Well baby, I assure you thats not us

Dont waste your time on guys like me
Well only let you down
We have agendas for you
And they are not pretty

So get up, get out
Before you get yourself into emotional, physical
disaster
It doesnt mean as much to us,
Were already in love
So get lost, just beat it
I really mean it, someone will get hurt
And Im one hundred percent that is wont be me

And what do you know I went and did it again!
You make it too easy
Three words, your heart stops beating for me

Dont lose your cool, Im rooting for you
Because we need to be stopped
Romance is another word for lust

So dont be a fool
Get out of the line of fire
Find yourself a nice boy and settle down
Forget me as soon as you possibly can
