En la vida hay tantos senderos por caminar
QuÃƒÂ© ironia que al fin nos llevan al mismo lugar
Pesar de las diferencias que solemos buscar
Respiramos el mismo aire, despertamos al mismo sol
Nos alumbría la misma luna, necesitamos sentir amor
Nos alumbría la misma luna, necesitamos sentir amor
Hay tanto tiempo que hemos perdido por discutir

Por diferencias que entre nosotros no deben existir
Las costumbres, raíces y herencias que me hacen
quien soy
Son colores de un arcoiris, acordes de un mismo son
Las palabras se hacen fronteras, cuando no nacen del
corazÃƒÂ³n
Hablemos el mismo idioma y asÃƒÂ¡ las cosas irÃƒÂ¡n
mejor

(coro)
Hablemos el mismo idioma, que hay tantas
Cosas porque luchar
Hablemos el mismo idioma, que solo unidos se
lograrÃƒÂ¡n
Hablemos el mismo idioma, que nunca es tarde para
empezar
Hablemos el mismo idioma, bajo la bandera de
libertad

Si lo pensamos nosotros tenemos tanto en comÃƒÂ³n
Y no conviene que el mundo nos oiga
Con una sÃƒÂ³la voz
Es importante seguir adelante con fuerza
Y con fÃƒÂ©
Forgemos nuevos caminos, en la uniÃƒÂ³n hay
Un gran poder
Orgullosos de ser latinos no importa
De donde, todo podemos vencer

(coro)
Hablemos el mismo idioma, que hay tantas
Cosas porque luchar
Hablemos el mismo idioma, que solo unido se
lograrÃƒÂ¡

Hablemos el mismo idioma, que nunca es tarde para
empezar

Hablemos el mismo idioma, bajo la bandera de
libertad

Hablemos el mismo idioma dame la mano
Mi hermano

(ad lib) no importa de donde seas todos

Somos hermanos tÃƒÂº ves

Que no existan las diferencias entre nosotros hispanos
En esta vida hay que trabajar para lograr lo que
queremos, latinos

Las palabras se hacen fronteras cuando no se

Hablan del corazÃƒÂ³n si tÃƒÂº ves

No importa raza ni religion, somos hermanos

En el corazÃƒÂ³n pero que fuerza tenemos

Los latinos si nos mantenemos unidos

(Translation:

In life there are so many paths that we can choose to
walk

How ironic that they all lead to the same place

In spite of all the differences that we tend

To look for in each other

We all breathe the same air and wake up to the same
sun

The same moon shines down on all of us

And we all have the need to feel love

We've already wasted so much time arguing about
differences

That should not exist between us

The customs, races and inheritances

That make me who i am

Are like the colors in a rainbow, different chords in one
song

And words can become barriers when they don't come
from the heart

Let's speak the same language

And that way things will go so much better

Let's speak the same language

There are so many things worth fighting for

Let's speak the same language

Only united can we achieve the things we want let's
speak the same language

It's never too late to begin let's speak the same
language

Under the flag of freedom

If we think about it, we have so many things in common

And it's better if the world hears us as one voice
It's important to always look forward with
Strength and with faith
Let's forge some new paths with strength in our unity
Proud of being latin, it doesn't matter from "where"
We can overcome anything (repeat chorus)
Let's speak the same language
Give me your hand, my brother
It doesn't matter where you're from, we're all brothers,
you see

Let's speak the same language
Give me your hand, my brother
Let there be no differences between us, hispanics
Let's speak the same language
Give me your hand, my brother
In this life we have to work for what we want to achieve
Let's speak the same language
Give me your hand, my brother
Words become barriers when they're not spoken from
the heart
Let's speak the same language
Give me your hand, my brother

Let's speak the same language
Give me your hand, my brother
It doesn't matter what race or religion we are
We're all brothers from the heart
Let's speak the same language
Give me your hand, my brother
If, as latins we stand united, we can be very strong
Let's speak the same language
Give me your hand, my brother
