You're the only one  
To make me tremble  
The one to show me  
How to laugh and cry

In your arms I feel complete surrender  
Why baby why

To feel no need for lies or alibis  
I want you so bad  
Ooh baby  
I really, really want you

What should we do  
What should we do  
You know I want you

Should I stay should I go  
Really don't know  
I'm so scared I'm afraid  
I can't find a way  
To say I love you

No ones's ever touched me Like you've touched me  
I swear that's no lie

I never thought I'd feel like this inside  
Can't control this feeling deep whitin me  
I'cant keep it inside  
Yet I can't seem to let it go, oh no

I want you so bad  
Ooh baby  
I really, really want you

What should we do  
What should we do  
You know I want you

I want you so bad  
What should we do

Ooh baby, baby  
I really, really, really, really want you
