Night bring me my lover, night
Bring me my lover, night
The night has brought me you, ooooh
Night bring me my lover, night
Bring me my lover, night
The night has brought me you, ooh
Night, bring me my lover
Baby, night is sweet?
To each other that's the way we meet
I went all day for night to come
When I ? so easy
Do you want my lover, baby
Exchanging smiles and glances,
Just by to take my chances

Night bring me my lover, night
Bring me my lover, night
The night has brought me you, ooooh
Night bring me my lover, night
Bring me my lover, night
The night has brought me you, ooh
Night, bring me my lover
You're the living cruel
To satisfy each other, that's the loving truth
One day is all I want belong to ? baby
That's the way I found you, lover?
Each other
Night's brought us one another

Night bring me my lover, night
Bring me my lover, night
The night has brought me you, ooooh
Night bring me my lover, night
Bring me my lover, night
The night has brought me you, ooh
(I'm so high) I'm in love tonight
(so high) I think our love is so right

(so high) ? tomorrow-morrow
Night (bring me my lover)
Bring me my lover,
Night

(bring me my lover)
Bring me my lover, night
The night has brought me you, ooooh

Night (bring me my lover)
Bring me my lover, night
(bring me my lover)
Bring me my lover, night
The night has brought me you, ooh
Night (bring me my lover)
Bring me my lover, night
(bring me my lover)
Bring me my lover, night
The night has brought me you, ooooh
Night (bring me my lover)
Bring me my lover, night
(bring me my lover)
Bring me my lover, night
The night has brought me you, ooh
Night (bring me my lover)

Bring me my lover, night
(bring me my lover)
Bring me my lover, night
And night has brought me you, ooooh
Night (bring me my lover)
Bring me my lover, night
(bring me my lover)
Bring me my lover, night...
