Mi corazon retire y nunca pense
Que podria tener ilusions
De que vale amar si siempre al final
Solo quedan dolores

Largas noches pase sin nunca tener
Quien me consuele
Mi destino cambio cuando a ti te encuentre
Aprendi de mis errores

Y es que llegaste tu entre las nubes negras
Ya no siento dolor, rompiste las cadenzas que me
Ataban con temor
Conmtaste mi condena

Casi pierdo la esperanza
Es que el abismo donde cai era tan grande
Senti ahogarme
Inalcanzable
A la deriva en un mar de seres
Todos iguales, inconsolable

Y es llegaste tu entre las nubes negras
Ya no siento dolor, rompiste las
Cadenas que me
Ataban con temor
Conmutaste mi condena

Si te tengo a ti
Puedo sentir bellas emociones
Eres un rayo de luna
Tu amor es cura
Tu amor me llena

Coro:
Te tengo a ti
No hay miedo en mi
Mientras tu estes cerca
Eres un rayo de luna
Tu amor es cura
Tu amor me llega

Si, te tengo, yo te llevo
Si, te tengo, yo te llevo
Ay amor, ay amor

Si te tengo a ti

(Coro)

Te tengo a ti, te tengo a ti
Del cielo cayo una rosa
Te tengo a ti
Pintadita de colores
Te tengo ti
En el centro ella decia
Te tengo a ti
Que el amor de mis amores

Si, te tengo, yo te llevo muy dentro de mi

Te tengo a ti

Translation:

I retired my heart
And never thought
I could once again dream

What good is it to love
When in the end
All that's left is pain

Long nights passed
Without anyone to console me
My destiny changed when I found you
I learned from my mistakes

It's because you came
Right out of my gray skies
That I no longer feel pain
You broke the chains of fear
That held me down
You commuted my sentence

I had almost lost all hope
Because the abyss I had fallen into was so great
I felt I was drowning
Happiness was unattainable
Lost in a sea of beings
Everyone the same, inconsolable

It's because you came

Right out of my gray skies
That I no longer feel pain
You broke the chains of fear
That held me down
You commuted my sentence

If I have you
I can feel beautiful emotions
You are the light of the moon
Your love heals me
Your love fills me

Chorus:
I have you
I am not afraid if you are near me
You are the light of the moon
Your love heals me
Your love reaches me
(Yes, I have you, I take you with me)
(Yes, I have you, I take you with me)
(Oh my love, oh my love)

If I have you

(Chorus)

(I have you, I have you)
A rose fell from the sky
(I have you)
Painted in different colors
(I have you)
In it's heart is said
You are the love of my life

(Yes, I have you
And I take you deep inside me)

I have you
