We go around and lie to one another
Without a second thought
Don't you think we're fooling each other?
Like this we can't go on

No respect or consideration
Where has your conscience gone?
Take a step in the right direction
Or we won't last too long

What goes around, comes around
You got to stand in your ground
Be careful what you say or do
Whatever goes around, comes around
Comes around

Once again you got away with it
Are you happy now?
Watch your mouth, don't put your foot back in it
Gets back to you somehow

I must say you tell a good story
Of things I know ain't true
Oh, you turn around, say you're sorry
With a straight face attitude

What goes around, comes around
You got to stand in your ground
Be careful what you say or do
Whatever goes around, comes around
Yes it does

What goes around, comes around
You got to stand in your ground
No matter what road you take
Whatever goes around, comes around

Don't underestimate this girl
You will only fool yourself
Are we gonna live with this?
When there's so much at stake

There's no way, we're gonna make it
A change is overdue
Live and learn to love one another
It's all up to you

What goes around, comes around
You got to stand in your ground
Be careful what you say or do
Whatever goes around, comes around

What goes around, comes around
You got to stand in your ground
No matter what road you take
Whatever goes around, comes around

What goes around, comes around
No matter what road you take
There's so much that stands take
Whatever goes around, comes around
Goes around, comes around
