I like you soft ways, I know she's gone
But here I am and I'm prepared to stay
You don't have to hide inside your mind
Put up a fight, I'll love you make it right
'Cause if your heart needs some attention, I think you
know I can be found
And I can ease the tension whenever I'm around
Come on, be soft with me tonight
I know you need a love that's true
And I can supply it
Come on, be soft with me, don't fight
You know how much I need you too
And I won't deny it, oh no

You wanna a girl that's strong
That isn't wrong, I understand
I'm here to help your plan
I just wanna please but you unease
Won't let you down
Your dreams won't touch the ground
So don't pretend she didn't matter
I know your heart feels insecure
I'll help you to forget her
My love will be the cure
Come on, be soft with me tonight
Let it be me you're thinking off
Ooh baby, baby, c'mon be soft with me tonight (Don't
fight)
You know how much I need you love
Oh, be soft with me tonight
Let it be me you're picking out
Oh, come on, be soft with me, don't fight
You know how much I need your love
Oh now, be soft (Be soft with me tonight)
Come on, come on, be soft, be soft
And don't fight
Be soft with me tonight
