The future is predestined... the writing's on the wall  
Can you see the telltale signs. The turning point has  
come

Here it comes

Suicide bombs exploding as missiles crack the sky  
Earthquakes and tsunamis, signal the end of time

In the here... and the now

Feel the fear... it's all coming down

[Chorus:]

The world is turning, turning inside out  
The world is burning, it's burning on somehow  
But it's broken... it's burning... goin' up in flames!

Can we change the path we're on, somehow turn the  
tide

Smother the all consuming fire, before the world  
collides

With the here... and the now

Feel the fear... all coming down

[Chorus:]

The world is turning, turning inside out  
The world is burning, it's burning on somehow  
The world is turning, turning inside out  
The world is burning, it's burning on somehow  
But it's broken... it's burning... goin' up in flames!

[Bridge:]

Do you remember bluer skies, happy days and simpler  
times

Seems not that long ago

But so far away, will it ever be the same again

I Don't Think So!

Cos' it's here... and it's now

Feel the fear... all coming down

[Chorus:]

The world is turning, turning inside out

The world is burning, it's burning on somehow  
But it's broken... it's burning... goin' up in flames!  
Up in flames!
