You were right  
I was  
time with myself  
I tried to bury you with guilt  
I wanted to give you all  
I got nothing better to do  
Don't pay too much attention to me  
It's sad but it's not your fault  
Selfrighteous fool  
I guess I lost that cool  
Tapping till I drive you insane  
Selfrighteous, never right  
Setting back, so uptight  
to tolerate me  
the sphere I bring  
Why, I was obsessed to bring you down  
Watching your every move  
Playing a little boy game  
Always had something to prove  
Waiting to cut you down  
Making it hard to move  
With only one thing to do  
Tell me first to make it easy  
Now you will be free  
Now nothing depends on me  
Tapping till I drive you insane  
Now you will be free  
No sick people to  
I figure it has that warm  
I thought I would never go  
I thought I would never go  
Freed pig
