"I Just Wanna Get Along"

We were rich once
Before your head exploded
Imagine doing just what the Big Bang did

The whole world
Knew it was loaded
Wave bye bye 'cause
It ain't ever coming down, now

I just wanna get along
I just wanna get along
I just wanna get along

I look up the heads fly over
I see a boy I know, his hair's on fire
The whole world I discovered
If you're so special why aren't you dead

I just wanna get along
I just wanna get along
I just wanna get along

Wave bye bye 'cause
It ain't never coming down, now

I just wanna get along
I just wanna get along
I just wanna get along
