Just to say she minds  
Some girls  
Who caught my eyes  
You've got to understand  
I'm a manchild  
Lord of the thighs  
Well, well, my God  
What have we got here  
Your fashion across the floor  
Make a perfect  
No debate  
On the hook  
Someone take a look  
I'm the man child

Lord of the thighs  
You must have come here to find it  
You've got a look in your eyes  
I am the lord of your thighs  
You must have come here to find it  
You've got that look in your eyes  
Although you really don't want it  
I am the lord of your thighs
