Down to ???, just to socialize
I'm waiting for my girls
When you caught my eyes

You've got the way to make a man
Honey, you've got to understand
I'm the manchild
Lord of your thighs

Well Lord, my God
What do we got here?
Your fashion across the floor
Make it perfectly clear

You're the bait
And you're the hook
Someone take a look
I'm the manchild
Lord of your thighs

You must have come here to find it
You've got that look in your eyes
Although you really don't like it
I am the lord of your thighs

You must have come here to find it
You've got that look in your eyes
Although you really don't like it
I am the lord of your thighs
