Your love is like a fire
It thrills me with desire
Your love is like a fire

Your love is like a fire
Your flame keeps gettin' higher
Your love is like a fire

You pulled me through from cryin'
You knew that I was tryin'
You knew that I was tryin'

You moved me from the city
On Sunset it ain't pretty
Your love has got to be like a fire

What do you do, when your down and out?
How can you choose when you know your gonna lose?
You gotta help me, you gotta help me
You gotta help me

You be my friend never can end
You be my friend never can end

What do you do, when your down and out?
How can you choose when you know your gonna lose?
You gotta help me, you gotta help me
You gotta help me

Your love is like a fire
It thrills me with desire
Your love is like a fire

Your love is like a fire
It thrills me with desire
Your love is like a fire
