[Part I - Dark Serenity]

[Jean Rothen / Cas? Mar / Emerson D?cio]

Slowly I hear a calling,  
I feel it's not the end.  
I don't know if I'm dreaming  
So I look around and then  
There's a lady smiling,  
She's taking care of me.  
A soft light shines around her,  
I don't even know her name.  
I found life safer in her warm arms

[Iara]

Dreaming,  
It's easier to us  
I can heal your spirit and your heart  
I found life so fragile in your sleep

[Warrior]

Now I need a reason  
Believe this is not real  
A face I can't forget  
And if I could, it's not my will  
I fall down tired, come to sleep, please

[Iara]

You will not remember me  
Our story is just beginning  
While this love is hidden into my heart  
I'll be your star

[Part II - Dead In My Dreams]

[Jean Rothen / Emerson D?cio]

Now everthing turns into gray  
It fades away  
What is this?  
These shadows getting close to me

My body freezes, I can't feel my lips  
My lucidity is gone

[Pre-chorus]

I hear them calling me  
And now I'm not afraid of  
The spirits of the warrior kings

[Chorus]

They touched my mind  
With stories of believes and lies  
All the truth I couldn't see  
No Indian war can be won  
If the leader falls down  
I'll have to leave this place of dreams  
I was not prepared for this  
But inside me, I feel the pressure  
What is this? My destiny is now revealed  
I dare to see trough their dark eyes  
My sanity is gone

[Part III - Blind Eyes, Blind Heart]

[Jean Rothen / Cas? Mar]

Tonight we've been so close  
But I still can't see  
'Cause my eyes were shut  
Moved by pain and love  
In the chaos I breathe in the air  
Where do you come from, tell me?  
Silence makes me die slowly  
'Cause my heart is blind  
I'm afraid of love  
And the pain, I can't breathe the air

[Part IV - The Taste Of Revenge]

[Glory Opera]

The sunlight burn my eyes  
Death forgot to take me  
There's no more pain or scare  
My awakening time has come  
I'm feeling strong enough  
To face a hundred men  
It is time for payback  
No regrets for their tears.

[Pre-chorus]

A dark voice is telling me to go on

No prayer on my enemies

[Chorus]

The rival tribe will taste fury and revenge  
With power that grows inside my heart  
I will wait here to kill the coward prince  
Who think I've died

[Iara]

If the story of your life is becoming dark  
Don't worry  
'Cause sometimes these dreams  
May confuse you, I'll be always with you  
It's not for my life I fear to cry  
Because we are like two rivers tied

[Part V - The Ghost Within]

[Glory Opera]

Am I awake? Can't see her face.  
I am feeling, she's my soul mate  
Who's that lady wandering in my dreams?

[Iara]

No sadness, no loneliness  
'Cause I'm here praying

[Warrior]

Why did she save me  
And simply disappeared?

[Iara]

No answers, just silence,  
'Cause now I'm leaving

[Warrior]

Give me something to believe  
Just a sign to know you're real  
You're the shining light of my way.

[Part VI - Eyes In Torment]

[Glory Opera]

Wrath!

Come to my crushing reality  
Now you have no more to help you out  
Sticking the blade in your skin  
No witness for your empty screams  
Running from me won't make survive

Spilling out blood, a matter of time  
This is my rite, your dying eyes  
Beholding my sarcastic smile

[Pre-chorus]

The blood hides the green of the trees  
Nowhere to hide, there is no way out  
Just you and me, where's your bravery?  
I am your fate, your hangman  
My voice will rest inside your head  
I'll be the ruler, show some respect  
Because this might be your last act  
Where is your pride? Ask for your life  
The desperation in you eyes

[Pre-chorus]

The blood hides the green of the trees  
Your poor life is nothing in my hands  
Silence sounds louder than death

[Chorus]

I am the terror in your eyes, I see  
My enemy is crawling  
The time slows down when you look at me  
Suffering, the torment start  
Evil control my hands  
Excruciation your body  
Pleasure while I am  
Chopping it up

[Part VII - Regret And Shame]

[Jean Rothen / Cas? Mar]

Without control, I've lost my will  
What's happening to me?  
All this rage that lies in my heart  
Came mysteriously  
And took away my sanity  
The nightfall brings me the sorrow  
Shame and tears  
I hope for a chance so I can  
Fly out this lunacy  
All that pain that lies in my heart  
Vanishing slowly  
And bringing back my sanity  
My regret consuming my conscience  
But now there is to time  
I have to forget and stay alive  
The nightfall brings me the sorrow  
Shame and tears
