Father of light shine on me  
I've found myself unclean  
And humbled now before you  
Have your way with me  
That I might be found pure  
Cleansed by the refiner's fire  
Set this heart ablaze and let it burn  
With a passion for the lost a passion for your heart  
Burn fire burn purify this selfish heart  
Until all I have is yours  
Every test you throw my way  
You never leave my side  
That I might persevere  
And know your faithfulness  
And in my heart will burn  
The holy fire of God  
Holy holy darkness flees from you  
God almighty make me more like you
