#### VERSE 1:

Du, du, du, du, du ...

The alarm clock rings - suddenly I'm shocked

Did I oversleep today

Thank god it's sunday - I don't have to work

I feel so dizzy when I open up my eyes

#### BRIDGE:

Who is lying there

Something in the air

That girl is lost and found

I get close to her

I just sit and stare

Then she turns around

#### CHORUS:

So let's stay in bed

You're the sweetest girl I've ever met

Time is on my side

And everytime is like last night

It's a beautiful, it's a beautiful, it's a beautiful morning

It's a beautiful, it's a beautiful, it's a beautiful morning

#### VERSE 2:

Du, du, du, du, du ...

Ain't that toothbrush mine - suddenly I'm shocked

Must be dreaming anyway

I see a lipstick - solid as a rock

I have to go to bed and close my eyes

BRIDGE:

What is going on

Didn't make it home

All I remember are the blue eyes in my dream

Then I turn to see

How she looks at me

Now I know she's real

PRE CHORUS/SOLO

What a beautiful morning

Cause I got you by my side

What a beautiful morning

Perfect end to a perfect night
