memories i just can't erase  
i'll do anything to see your face  
what if i said that i believed in you and me  
a part of me that i just can't replace  
i'm lost and i was gone without a trace  
i just find it hard to breathe without you near  
and now i'm stuck in this maze  
cos baby you were everything, now i'm left with nothing  
how could i let you go, i gotta let you know  
that baby you were the best thing  
and now i'm stuck in this maze  
cos baby you were everything, now i'm left with nothing  
and if you didn't know baby i love you so  
i wish we made this a good thing

baby girl i wish that i didn't walk away  
i wish that i could tell you i'm sorry  
cos baby i need you, baby i need you, baby i'm sorry  
baby girl i wish that i didn't walk away  
i wish that i could have you here today  
cos baby i need you, baby i need you, baby i'm sorry

so baby tell me what i'm suppose to do  
is there a chance that i can get close to you  
girl i swear that i will do anything  
like a petal on a rose baby you're so beautiful  
listen girl i was foolish  
what kind of man in his right mind would do this  
and now i'm stuck in this maze  
cos baby you were everything, now i'm left with nothing  
how could i let you go, i gotta let you know  
that baby you were the best thing  
and now i'm stuck in this maze  
cos baby you were everything, now i'm left with nothing  
and if you didn't know baby i love you so  
i wish we made this a good thing

baby girl i wish that i didn't walk away  
i wish that i could tell you i'm sorry  
cos baby i need you, baby i need you, baby i'm sorry  
baby girl i wish that i didn't walk away

i wish that i could have you here today  
cos baby i need you, baby i need you, baby i'm sorry

(oh oh oh) baby i'm sorry  
and now i'm stuck in this maze  
cos baby you were everything, now i'm left with nothing  
how could i let you go, i gotta let you know  
that baby you were the best thing

baby girl i wish that i didn't walk away  
i wish that i could tell you i'm sorry  
cos baby i need you, baby i need you, baby i'm sorry  
baby girl i wish that i didn't walk away  
i wish that i could have you here today  
cos baby i need you, baby i need you, baby i'm sorry  
baby i'm sorry
