The sounds are ringing thru the night  
Like a symphony  
You can hear it come Yeah here it comes  
From all but one direction  
Like bugs to the fire  
You can hear them come  
Yeah here they come

Here come the pigs, and they're coming in fast  
Here come the pigs let the first be the last  
Here come the pigs - Here come the pigs

Duck down coz they're coming in in force  
Coming in on foot and on horse  
Coming in thru the broken doors

Get out coz tonight won't be a ball  
It will be the end of us all  
It will be a revolution when you hear their call

Coz they'll come in a rush  
The blood will gush  
My god they are just too big  
Here come the Pigs - Here come the pigs

And the day will be night and there will never be light  
It's the end of the peace and the start of the fight Yeah  
Here come the pigs - Here come the pigs  
Here come the pigs - And here they come

At the bottom of a pile at the bottom  
Gonna be a little while and they got'em  
Yeah

You can blow the horn you can kill that goat  
Make a crown of thorns or put your world on that boat  
But it ain't no use

We all know they are close very close  
got the smell of the pig coming up our nose  
It is time to get on to the other side to cut loose run

away to duck down and to hide  
Here come the pigs
