"Immerse"

Visit "[Immerse](#)" on MotoLyrics.com

I have done wrong, I have done wrong Through the gift
of God, I see I have done wrong I see it living in me,
this wretched body of sin Holding me prisoner, causing
me to die within I separate, I separate Through the gift
of God, I feel it separate I feel the duality, the flesh
against the soul The captive must be set free, I must
regain control I must die to sin, must control my sin
Only then through death can I live again Kill the body of
sin, pull me under Give me new life within, lift me up
Identify, Identify Through the gift of God, I now identify
I now unite with Christ, my own self crucified No longer
in slavery, I'm given life through Christ
