Tonight
She said tonight don't make a sound
Everything will be fine, it'll be fine
Yeah tonight don't turn down anything that feels right
Trust me this feels right, it's alright
I know you have been here before
But I'm something more in your eyes
We'll take our time don't fight it, we'll rise above it all
We'll take our time don't fight it, we'll rise above it all
She said tonight you're all mine now
Breathing for the first time, for the first time
Yeah tonight I won't let down, you're waiting for the
right sign
And we've got all night, all night
I know you have been here before
But I'm something more in your eyes
We'll take our time don't fight it, we'll rise above it all
We'll take our time don't fight it, we'll rise above it all
We'll take our time don't fight it, we'll rise above it all
I know you have been here before
But I'm something more in your eyes
We'll take our time don't fight it
We'll rise above it all
We'll take our time don't fight it, we'll rise above it all
We'll take our time don't fight it, we'll rise above it all
We'll take our time don't fight it, we'll rise above it all
Yeah, we'll take our time, don't fight it, we'll rise
