You were always there  
Taking every dare  
With nothing to prove  
And I already knew  
I'm taking candy from a baby  
(Wooaah)  
Made it look easy

Check out the power that you keep inside  
Build up the forces that you used to fight  
Changing everything we have inside  
Disappearing right before our eyes  
[2x]

You can't touch me  
You can't feel me  
I'm invisible  
(Invisible)  
You can't beat me  
You can't see me  
I'm everywhere  
Everywhere

You never let me down  
You always came around  
Keeping things inside  
Is the kind of way you hide  
You intentions were always good  
(Wooaah)  
Though not understood

Check out the power that you keep inside  
Build up the forces that you used to fight  
Changing everything we have inside  
Disappearing right before our eyes  
[2x]

You can't touch me  
You can't feel me  
I'm invisible  
(Invisible)

You can't beat me  
You can't see me  
I'm everywhere  
Everywhere

No room for doubt  
No room for doubt  
No room for doubt

You can't touch me  
You can't feel me  
I'm invisible  
You can't beat me  
You can't see me  
I'm everywhere

You can't touch me  
You can't feel me  
I'm invisible  
(Invisible)  
You can't beat me  
You can't see me  
I'm everywhere

Everywhere  
Everywhere  
Everywhere  
Everywhere  
Everywhere  
Everywhere  
Everywhere  
Everywhere  
Everywhere  
Everywhere
