I was wondering what's the commotion
Then I got a little bit closer
I saw the weeping boy
Crying rivers filled with joy

He ran away
Across the street
Into the moonlit night
He wept his tears and sang songs about leaving town

He should have known
That what was wrong would never leave him behind
As he stopped he found out
Headed back into his town
But got lost into tonight
The most beautiful night of them all

Beautiful
Beautiful night
Walk me home
Beautiful
Beautiful night
Walk me home

I was wondering what's the commotion
Then I got a little bit closer
I saw the weeping boy
Crying rivers filled with joy
