There's a Santa on the corner
And he's ringing his bell
He's got a fake beard
But the kids can't tell

Decorations are up
All over the town
And the carolers
Are making...a sweet sound

(Everywhere I look)
People smiling at me
(Everything I see)
Is covered up in lights
(Every flake of snow)
Falling down so perfectly
It only happens at
Christmas time!

I found a perfect gift
For my Uncle Joe
And I kissed a cute girl
Underneath the mistletoe

The stocking are hung
By the chimney with care
I can tell by how they look
There's presents in there

(Everywhere I look)
People smiling at me
(Everything I see)
Is covered up in lights
(Every flake of snow)
Falling down so perfectly
It only happens at
Christmas time!

(Christmas time...)
Ooo, can you feel it?
(Christmas time...)

There's a magic in the air
(Christmas time...)
Jesus came, yeah, I believe it
(It's Christmas time)
(2x)

(Everywhere I look)
People smiling at me
(Everything I see)
Is covered up in lights
(Every flake of snow)
Falling down so perfectly
It only happens at
Christmas time!

(Everywhere I look)
People smiling at me
(Everything I see)
Is covered up in lights
(Every flake of snow)
Falling down
It only happens at
Christmas time!

(Everywhere I look)
People smiling at me
(Everything I see)
Is covered up in lights
(Every flake of snow)
Falling down so perfectly
It only happens at
Christmas time!

It only happens at
Christmas time!
