(We kick it old school)
(5x)

Come on, come on
Don't miss the latest craze
Hit it for a minute
Then it's on to the next phase

Easy come, easy go
The markers will mark it
The only change that comes
Winds up in a pocket

Hop on the wagon
Drive the heavy thing
All the while we're missing
All the joy that God can bring

You can take the new stuff
You can keep the fluff
The Bible is our tool
And we're here to kick it old school

Here we go
You know we're going retro
We're cool as a rule
Yeah, we kick it old school

We kick it old school

(We kick it old school)

Brother, we're emerging
Like a moldy piece of bread
We have to see if
The holy word of God is all but dead

All we need to know
Is right there on the pages
Why are we obsessed
With who the guy on stage is?

Dance the hottest dance
Get the latest buzzy
We're gonna find out
Jesus wasn't very fuzzy
Was He?

You can take the new stuff
You can keep the fluff
The Bible is our tool
And we're here to kick it old school

Here we go
You know we're going retro
We're cool as a rule
Yeah, we kick it old school

We kick it old school

(We kick it old school)

(We kick it old school)
(2x)

If you believe the Bible's true
(You're kicking it old school)
And life's not all about You
(You're kicking it old school)
If you know you're in a bad spot
(You're kicking it old school)
And you need the grace that God's got
(You're kicking it old school)

You pray to God on your knees
(You're kicking it old school)
You're making no apologies
(For kicking it old school)
There's one more thing to say
(If you're kicking it old school)
Jesus is the only way...

(We kick it old school!)

You can take the new stuff
You can keep the fluff
The Bible is our tool
And we're here to kick it old school

Here we go
You know we're going retro
We're cool as a rule

Yeah, we kick it old school

You can say we're strange
But we're never gonna change
The Bible is our tool
And we're here to kick it old school

Get the crowd jumpin'
We're Bible thumpin'
God still moves
We kick it old school

We kick it old school

(We kick it old school)

We kick it old school

(We kick it old school)
