

Go Fish "Parade"

Visit "[Parade](#)" on MotoLyrics.com

Life rolls down the street right in front of me
Marchin' to a rhythm of it's own
Un, down, i feel like i'm livin' on a slide trombone
Watchin' it all with my heart parked in a tow-a-way zone
You never really know what's comin' up next
If you blink it'll pass by you
Right when you think you've seen it all--Surprise!

CHORUS

You see the whole parade
From the beginning to the end
You know the route that my life will take
You know exactly where I've been
'Cuz while I only see what's goin' by in front of me
You see the whole parade.

Left, Right

Look straight ahead everybody in step
Some days i'm a leader of band
Left turn
Should've gone right now here I am
Walkin' behind the horses with a shovel in hand.

Life is fine I'm holdin' the line
On an 80 foot Winnie the Pooh
Then thw wind begins to blow--Watcha gonna do?

CHORUS

You see the whole parade
From the begining to the end
You know the route that my life will take
You know exactly where I've been
I need to look to you
For the choices I will make
'Cuz while I only see what's going' by in front of me
You see the whole parade
