Vs. 1

A musical blanket  
Woven together with a melody and rhyme  
The songs we live our lives to  
Take us to another place and time  
And like the snowflakes that fall from heaven  
Each one different crafted carefully  
From only eighty-eight keys come endless possibilities  
And that's what amazes me

Vs. 2

Little fingers curled 'round mine  
A perfect heart beats right in time  
Brand new eyes look all around  
As tiny ears hear every sound  
And like the artist creates his masterpiece from  
nothing  
So this child came to be  
From the love of two came a whole new entity  
And that's what amazes me

Vs. 3

There is a place inside of me  
Im thankful no one else can see  
Thoughts Ive had, wrongs Ive done  
I wish I could take back every one  
Like a father who loves his children  
Youve seen my faults, Lord, and Youve forgiven me  
The one I wished I was is the one that You see  
And that's what amazes me
