Sometimes I float through life
Like I really don't care
Yeah

Cuz when you don't know
Where you're going
Any road will take you there

But before I go too far
And I fall right off the track
I see a sign that points to You
And I best be heading back

(Because I know...)

That when this life is over
When it all comes down
You could be on your way home
Or you may be wandering around
You see there's not much time
To sit around and ask why
Because it can all be over
In a twinkling of an eye

Boy, you say you're not sure
You're kinda riding on the fence
You say the world has many options
And you want some evidence
Regulations got you down
And you want to have some fun
If it's a reason that you need
(I've got one)

That when this life is over
When it all comes down
You could be on your way home
Or you may be wandering around
You see there's not much time
To sit around and ask why
Because it can all be over
In a twinkling of an eye

Now I hear you saying,
"Well, what am I to do"
Well the choice it seems so obvious
But hey, it's up to you
If you take a stand now
You'll be anxious for the day
When our father picks us up
And takes us all away

When this life is over
When it all comes down
You could be on your way home
Or you may be wandering around
You see there's not much time
To sit around and ask why
Because it can all be over
In a twinkling of an eye

When this life is over
When it all comes down
You could be on your way home
Or you may be wandering around
You see there's not much time
To sit around and ask why

Because it can all be over...
