Vs. 1

She looked good in my eyes  
And in everyone else's too  
She had it all together  
At least from others point of view  
Always the one to be with  
And Mary was her name  
I didn't know her too well  
But enough to never be the same  
She knew the things to say  
She knew the things to do  
She knew the people to know  
But Lord she never knew You  
What Mary didn't know was the answer I was holdin'  
I didn't think she'd change so I never even tried  
How was I to know?  
I wish I would've told her  
Now I'll have to live and die with what Mary didn't know

Vs. 2

She was a seeker, lookin' to find  
Some kind of somethin'  
And I remember the time  
When we were talkin'  
Opportunity for me was prime  
But I missed it, now I look back in my mind  
Right on the tip of my tongue was, Jesus died for you  
The words stayed right there  
I never got through  
Have mercy on her soul, have mercy on me  
I was weak, please forgive me

Chorus

Vs. 3

The day came for Mary to stand before the throne  
And as she saw the tears in her Father's eyes  
She cried, I wish I would've known.  
I knew things to say, I knew the things to do  
I knew the people to know, but God I never knew You.  
Someday I'll answer for. . .

Chorus
