Hey there angel
I wonder what you're lookin' at
When I see you starin' up at me
I got a polka-dotted piece of lint in my pocket
Whatcha think about that?
Well, I thought it was kind of freaky
Or maybe it's just me

Do you ever feel like the only one?
Like a fried up bug in the magnified sun
Eyes fall on you like a 2-ton ton
And you wonder what it was that you begun

If I sing for you
Will you dance for me?
There's a place I had that I gave to thee
Look into my soul
I've laid it out to see
So if I sing for you
Will you dance?

Magically delicious
Soothing to the soul
Put it all in a pretty package
Look at Junior go
I love it when you go crazy
But I won't flatter myself
'Cuz if you weren't here clappin' for me
You'd be clappin' for someone else

Do you ever feel like the only one?
Like a fried up bug in the magnified sun
Eyes fall on you like a 2-ton ton
And you wonder what it was that you begun

If I sing for you
Will you dance for me?
There's a place I had that I gave to thee
Look into my soul
I've laid it out to see
So if I sing for you

Will you dance?

Say what you mean if you mean what you say
It's common for me to get carried away
Lord, those around me I pray they will see
That it's not what I have
But who gave it to me

Do you ever feel like the only one?
Like a fried up bug in the (magnified) sun
Eyes fall on you like a 2-ton ton
And you wonder what it was that you begun

If I sing for you
Will you dance for me?
There's a place I had that I gave to thee
Look into my soul
I've laid it out to see
So if I sing for you
Will you dance?

If I sing for you
Will you dance for me?
There's a place I had that I gave to thee
Look into my soul
I've laid it out to see
So if I sing for you
Will you dance?
