

Go For Broke

"No Time To Waste"

Visit "[No Time To Waste](#)" on MotoLyrics.com

An everyday struggle inside your head
It's where you're going not where you've been
You let every minute pass you by
Like there's nothing to strive for, nothing to win

There's so much to see
There's so much to do
There's so much to live for
And no time to waste

Keep pushing ahead - you know the truth
Your time will come if you see this through
Let go of all your fears, there's so much more
The future looks brighter than ever before

There's so much to see
There's so much to do
There's so much to live for
And no time to waste

The chance to seize our days
It lies in our own hands
