(Seale - McBee - Bernes)

If love should come again, for me and you
You could never count the ways of things I'd say
And things I'd do
And I would be more woman, than I have been
If I had the chance to love you again.

Fool fool, that's what I've been
And I don't wanna lose you
What can I do what can I do
My life ain't worth living
If my love is not worth giving to you.

All I want to say is, Baby
Your all I need, your hand is like sunshine
Touching me the right time
You are the air I breathe
And I would be more of a woman
Than I've ever been
If I just had the chance to love you again.

Fool fool, that's what I've been
And I don't wanna lose you
What can I do, tell what I do
Cause, my life ain't worth living
If my love is not worth giving to you.

(OH) fool, fool, that's what I've been...
