(E. M. King - D. King)

I'll find someone to love me if you don't
I'll find someone to love me if you don't
To hold me closer, closer than you
And he'll be true, not like you.

I'll find someone to need me if you don't
I'll find someone to love me if you don't
I'll belong to him like I did to you
And he'll be true, not like you.

I'll find someone who'll want me if you don't.
I'll find someone who'll want me if you don't..
I'll be true to him like I am to you
And he'll be true, not like you

I'll find someone to love me if you don't
I'll find someone to love me if you don't
