Just behind the rainbow
When the storm is through
Hidden by it's color
That's where dreams come true.

Just behind the rain cloud
There's a sunny day
That will dry your teardrops and you'll find love
'Cause the rainbow is on it's way.

Love isn't hard to find
It's only a dream away
If you have faith and hope in your heart
You'll find it just like I said.

Just behind the rainbow
That you see above
You'll find love, if you dream
'Cause dreams come true
Behind the rainbow of love.

You'll find love, if you dream
Cause dreams come true
Behind the rainbow of love...
