Pizza pies and carousels, fountains, wishing wells
Remember when we rode in edeline
Switzerland, we loved it too
Although we left there black and blue
Remember when we tried to learn to ski
Those two days in London town
We yankee doodled all around
Rubbed elbows there with all the royal teas
We still get so many laughs looking at those
photographs
Remember when we made these memories
Wasn't that some honeymoon I know I won't forget it
soon
Not if I live to be a hundred years
Here's the one we snapped in Spain
I can't remember was it rain
Or were your eyes just filled with happy tears
All good things must end it's true
So back to USA we flew
But who was happier than you and me
To relive each wonderland
We open up this album, and
Remember when we made theses memories
Ah let's remember when we made these memories
