Don't go to bed yet, love  
I think it's too early  
We just need a little time to our selves  
If my wall clock tells me that it's 4 in the morning, I'll  
give it hell

Cause I've been trying way too long to try and be the  
perfect song  
When our hearts are heavy burdens  
We shouldn't have to bear alone

So goodnight moon and goodnight you  
When you're all that I think about  
All that I dream about  
How I'd ever breathe without, a goodnight kiss from  
goodnight you  
The kind of hope they all talk about,  
The kind of feeling we sing about,  
Sit in our bedroom and read out loud, like a passage  
from goodnight moon

And sing for me softly, love,  
Your song for tomorrow,  
Tell me,  
My name's the one that's hidden in there somewhere  
And dream for me anything but dream it in color  
About we know the sun's still rising and we don't care

Cause I've been trying way too long to try and be the  
perfect song  
When our hearts are heavy burdens  
We shouldn't have to bear alone

So goodnight you and goodnight moon  
When you're all that I think about  
All that I dream about  
How I'd ever breathe without, a goodnight kiss from  
goodnight you  
The kind of hope they all talk about,  
The kind of feelings we sing about,  
Sit in our bedroom and read out loud, like a passage

from goodnight moon  
Goodnight moon

And there you were, and I saw my Juliet come graceful  
down the stairs,  
It's hard to miss the way her eyes light up the room  
And steal the air

Just feel her lips lock onto every breath I take & breathe  
it in,  
Do you feel us falling?  
Cause I feel us falling

So goodnight moon and goodnight you  
When you're all that I think about  
All that I dream about  
How I'd ever breathe without, a goodnight kiss from  
goodnight you  
The kind of hope they all talk about,  
The kind of feeling we sing about,  
Sit in our bedroom and read out loud, like a passage  
from goodnight moon

And there you were, and I saw my Juliet come graceful  
down the stairs,  
It's hard to miss the way her eyes light up the room  
And steal the air

Can you feel us falling?  
Cause I feel us falling  
Do you feel us falling?  
Cause I can feel us falling  
Do you feel us falling?  
Cause I can feel us falling  
Do you feel us falling?  
Cause I can feel us falling  
Do you feel us falling...
