I know you're gonna go back  
To Everything, to everything  
What's left then burning pages?  
Another chapter here and gone  
You turn me off, you turn me on  
I should've know this all along

We're living in a world  
Not quite like yours  
You're telling me that you're never coming back  
I don't know what to do

Minus one kiss we could be together  
I bit the bullet straight, no chaser  
Might as well kiss, say goodbye forever  
Watch your step and go, because I know

Shot after shot, it numbs the pain  
Nothing more to lose, nothing left to gain

We're living in a world  
Not quite like yours  
You're telling me that you're never coming back  
I don't know what to do

Minus one kiss we could be together  
I bit the bullet straight, no chaser  
Might as well kiss, say goodbye forever  
Watch your step and go, because I know  
Minus one kiss we could be together  
I bit the bullet straight, no chaser  
Might as well kiss, say goodbye forever  
Watch your step and go, because I know

Take a hit for lips that had to touch  
Never thought a kiss could hurt so much  
Take a hit for lips that had to touch  
Should've known your kiss would be the end of us

Might as well kiss  
Might as well kiss  
Cause I know

Might as well kiss  
Cause I know  
Might as well kiss  
Cause I know
