Open eyes don't help to see  
Dirty secrets with a knock  
Would've saved this tragedy  
But I left the door unlocked

Open eyes don't help to see  
Dirty secrets with a knock  
Would've saved this tragedy  
But I left the door unlocked  
You wanna make me  
Forsake me  
Walk off this pillow talk  
It'll bend your heart to break  
Until the beat stops  
Until the beat stops

Never meant to bring on these wrongs  
Seeing with the lights on  
The fights on  
Never meant to hide with these talks  
Taking in what she's got  
Never, never, never, never

Just listen first of all  
Don't take it personal  
This case the worst evolved  
So now let's watch it fall  
Don't trust me  
Don't trust me

Trust me  
Trust me  
Don't trust me

Realize now who is she  
But the answer waits in shock  
Ignites with cries between the sheets  
Disbelief in what you saw  
You wanna make me  
Forsake me  
Walk off this pillow talk  
It'll bend your heart to break

Until the beat stops  
Until the beat stops

Never meant to bring on these wrongs  
Seeing with the lights on  
The fights on  
Never meant to hide with these talks  
Taking in what she's got  
And we've lost

Just listen first of all  
Don't take it personal  
This case the worst evolved  
So now let's watch it fall  
Don't trust me  
Don't trust me

Trust me  
Trust me  
Don't trust me

I never meant to make it implied  
Cover your ties and color in my white lies  
I never meant to make it implied  
Cover your ties and color in my white lies

You wanna make me  
Forsake me  
Walk off this pillow talk  
It'll bend your heart to break  
Until the beat stops  
Until the beat stops  
Forsake me  
Walk off this pillow talk  
It'll bend your heart to break  
Until the beat stops

Just listen first of all  
Don't take it personal  
This case the worst evolved  
So now let's watch it fall  
Just listen first of all  
Don't take it personal  
This case the worst evolved  
So now let's watch it fall  
Don't trust me  
Don't trust me
