And I thought I'd I ask you something
I thought I'd never ask a soul
About how the nights here got so crazy
We lose control
Cause the suns been up for hours
Florida catch you out of breath
And we're all hoping where we started
Is where the night will end the best

And all I want to know
Is if you hear me
I've never spoke this clearly
(Could this any better)
Can you tell me how this goes
As you start your symphony
Let it sing us both to sleep
Even if the room don't stop from spinning

Lets leave our imprints on the sidewalk
Like our initials in the sand
And see if Tallahassee tips you to hold my hand
Cause its just like California summers
With better warmer Florida nights
The sounds get louder as I kiss you
I hope my words all come out right

And all I want to know
Is if you hear me
I've never spoke this clearly
(Could this any better)
Can you tell me how this goes
As you start your symphony
Let it sing us both to sleep
Even if the room don't stop from spinning

Whoa-oh-oh
Whoa-oh-oh

We'll start the night out with a promise
Sing it loud and honest
But at the end of this we won't feel a thing

And all I want to know
Is if you hear me
I've never spoke this clearly
Can you tell me how this goes
As you start your symphony
Let it sing us both to sleep
(Could this be any better)
And all I want to know
Is can you hear me
And can you hear me
(Could this be any better)
Can you tell me how this goes
As you start your symphony
Let it sing us both to sleep
Even if the room don't stop from spinning
