

Go Sailor "Long Distance"

Visit "[Long Distance](#)" on MotoLyrics.com

Sometimes I come home to no one
But it's much better than having no fun with you
You said that you'd start calling
But when does that start 'cause I'm still waiting

But I won't wish your plane down
Just this time, next time you won't be so lucky
I have no sympathy left for you
Please just pay me what you owe me

Monday I got a postcard from you
But I don't think I know what you hoped to achieve
With all the spaces you left in between
I'm sad that none of it means anything
But I won't wish your plane down
Just this time, next time you won't be so lucky
I have no sympathy left for you
Please just pay me what you owe me

Long distance calling
Big stars are falling
Long distance bother
Too late to call back now

I won't wish your plane down
Just this time, next time you won't be so lucky
I have no sympathy left for you
Please just pay me what you owe me
