Lyrics: Robert

ask he said, and ask is what I did  
a tone of plea for everything you get  
and I feel too much has been made  
of my fault, I don't call a spade  
ask he said, ask for what you need  
don't be shy, shyness is a little girl  
and I feel if you're scolded like a child  
all your elders, were once scolded too  
we're just  
no eyes, just ends  
we're just friends  
shut it, shut it...  
shut it, shut it...  
don't shut it don't shut it don't shut it  
don't shut it don't shut it don't shut it  
don't you care ---- just pull in  
ask he said, it's how you get advice  
and more than that it's talking to them

there is magic but really there's no magic  
in what appears  
I get quiet, I feel it all the while  
no one's touched me for such a long time  
and I get wounds she bathes them in salt  
never to open lightning with a bolt  
ask he said, and don't ever suppose  
if you don't ask then nobody knows  
we're just  
some eyes it's not  
were just old friends  
shut it, shut it...  
shut it, shut it...  
don't shut it don't shut it don't shut it  
don't shut it don't shut it don't shut it  
don't you care
