We're both careful  
We're both kind  
I know you  
you're so easy to find  
Clumsy me, clumsy you  
Fell in love  
and we don't know what to do  
We make mistakes  
Things crack and break  
A friendship's born  
and then it's too late  
Clumsy me and you  
Broke something  
and we didn't know what to do

It used to be fun  
Something to share  
Now we're both jealous  
'cause now we both care  
Between the world and us  
I sang, 'caught you'  
Two is a crowd, one of us should know  
Safety in numbers means number one can't go  
Clumsy me and you  
Broke something  
and we didn't know what to do
