Hey over there what's going on  
When my sun is setting  
Yours is breaking dawn  
Say over there I want to talk  
Where I am they say you're wrong  
What do they teach  
you I wonder if we think the same thoughts  
How much  
have you bought  
These days I feel too wise  
I think we're  
sharing the same lies  
CHORUS We're all alone together  
Beneath the blue sky  
We'll kiss goodbye  
And if we  
stand apart  
The calm hides stormy weather  
Beneath  
the blue sky  
Everybody wants to live  
Way over there do  
you feel it too  
In the end there's no privileged few  
CHORUS Their lives through
