Written by Wiedlin/Valentine/Sobule Punk rock girls with some noise to make Hollywood 1978 Babe said Let's start something great We couldn't wait Gonna stay up 'til we hit the top Char said I've gotta go non-stop Soon the other stiletto would drop For the Sweethearts of Pop Who knew we were going down FLOWERS BLOOM THEY FADE TOO SOON So careless with what we'd found Making and breaking our Daisy Chain At Number One not doing so fine Still having some fun spilling the wine WHAT HAPPENED TO OUR DAISY CHAIN The rising sun never felt too kind Trying too hard to play the part We were out of our minds Been brought down by a broken heart KV burned out like a shooting star We were falling apart Who knew we were going down Making and breaking our Daisy Chain So careless with what we'd found WHAT HAPPENED TO OUR DAISY CHAIN FLOWERS BLOOM THEY FADE TOO SOON The high life was already on the wane The lines were blurred the pace insane I gotta save myself from this runaway train We never even said goodbye Sweet Jane
