He's crying inside Life's rushing by Like and old movie  
backdrop Can't tear the hurt out The radio's blasting  
Song after song That went all wrong About the big  
romance She says: I just wanted to make you CHORUS I  
never meant to break you Have some mercy on me  
Such a mercenary He says: Do you have to be She's  
scheming inside Been through it before Can't stop the  
wheels turning Just a gold-plated heart There's no  
profit or learning She's not really bad It rips her apart  
So scared to be alone CHORUS
