Chorus:

You know I'm crushed out on you and you alone  
If I thought you had my number I'd stay home by the  
phone  
Day and night I sit and wait for you to call me  
But only time will show how far this can go

Verse 1:

His voice it comforts me  
Sweet and raspy tone of love  
It trails me into dreams  
I wanna wake up to it (up to it)  
Full blast (full blast)  
His name alone  
Gives me a rush  
What a feeling  
I can feel it in my bones  
A spirit  
I'm craving in my soul  
You could feel it all  
But you don't even know

Chorus:

That I'm crushed out on you and you alone  
If I thought you had my number I'd stay home by the  
phone  
Day and night I sit and wait for you to call me  
But only time will show how far this can go

Verse 2:

How I'm longing for the space and time to chill with you  
Thinking of the ways that I could keep my cool  
But this brown eyed girl  
And brown eyed boy  
Time stood still  
And passed us by  
Cause baby I  
I've been waiting for a little time  
Oh and you were so beautiful and this is sure (right)  
You're my kind of guy  
If I had a type of guy, I'd say it's you  
So don't let them bring you down

Cause right about now I like having you around  
And if it's real that's where hearts reside

Chorus:

And I'm crushed out on you and you alone  
If I thought you had my number I'd stay home by the  
phone  
Day and night I sit and wait for you to call me  
But only time will show how far this can go

Bridge:

If you think of me  
Half as much as I do you  
Confide in me  
Lets play for keeps  
And I can tell you all the things  
I longed to say  
The future wants  
We'll find a way  
And we can let it go

Chorus:

Cause I'm crushed out on you and you alone  
If I thought you had my number I'd stay home by the  
phone  
Day and night I sit and wait for you to call me  
But only time will show how far this can go

I'm crushed out on you and you alone  
If I thought you had my number I'd stay home by the  
phone  
Day and night I sit and wait for you to call me  
But only time will show how far this can go
