From the moment I saw you there was something about  
you

Just from the look in your eyes I knew I wanted to stay  
How you were licking your lips I could tell you a danger  
You're the type of boy not even love could change

So I know I should leave  
But I'm not ready to go  
About to ride that wave  
Got me in your zone

Caught up in that undertow  
Baby, you already know  
I know I should leave  
But something won't let go  
Caught up in that undertow  
Baby, you already know  
I know I should leave  
But something won't let go

Now when I'm around you get a little nervous  
And it's all understood cause you're in my zone  
It's getting hard to breathe feels like nothing can save  
you  
And I don't want it to seem like I already know

You're caught up in that undertow  
Baby, I already know  
You know you should leave  
But something won't let go  
You're caught up in that undertow  
Baby, I already know  
You know you should leave  
But something won't let go  
Something won't let go

Now when I hear myself speak I don't know what I'm  
saying  
I know I'm losing my cool and I don't want to to show  
I'm trying to make it even boy you got me off balance  
Guess we're both used to being in control

We're caught up in that undertow  
Baby, I already know  
We know we should leave  
But something won't let go  
We're caught up in that undertow  
Baby, I already know  
We know we should leave  
But something won't let go  
Something won't let go

That undertow  
Baby you already know  
I just thought, baby you already know
