

## Goat Horn "Re-Animation"

Visit "[Re-Animation](#)" on MotoLyrics.com

Brain dead, descending to flame  
No way to survive or have life regained  
Re-animation to bring back the dead  
Revive the soul, resurrect

Synthetically revived to regain control  
The spirit world sends back my soul

Pierce the needle through the back of my head  
Chemicals flow, I'm revived from the dead

Brain exists, my soul descends  
Re-animated, my sleep ends

The final curtain has been opened to regain my soul  
Blood restores my flesh, ice cold

Awakened, now I break the silence of life  
Raging uncontrollably, pummeling with spite

Re-animated
