# "Baptized In A Storm Of Swords"

Visit "[Baptized In A Storm Of Swords](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I am alone Killing my thoughts of outcome Delusional  
virus of God On the verge of extinction Inwardly caged  
Empty in silence Offering to the suicide king Leaving  
the misery of God A storm of swords to end my life  
(Take me) A storm of swords to end it all (Drown me)  
Lacerations from the sky to baptize my soul one last  
time Rising from these seas of boiling blood (My own  
blood) Torn from this birthed tomb that had no bearing  
on your choices Still the dove of peace can not justify  
the bearing of the wounds of Christ The blade of  
release Uplifting in belief Eyes opening to black  
Reforming of this afterlife This flame to resurrect  
Following my own will Holding the blade to chest  
Escape from this scream of conjuring Inhaling the  
blaze of forgotten fire Scorching new blood to black  
Through the center of the rotting sun The sick angel  
with razors for wings Resurrect me and offer me to  
suicide again Faceless king engulfs me in freedom A  
Venus of horror made imperial Lay me back to soak my  
head in pure blood Bleeding from my wrist...this  
stream of independence As I raise my vision escapes  
Feeding this surgery of the lifeless Six - Sacraments of  
anguish and deceit Six - Shadows of baphomets horns  
Six - Fatherless bastards of grief Birthright of the  
damned We praise our souls descent Bleeding like a  
cold river into eternal damnation These lacerations  
entwined (for) an alliance of the blind drink deep of  
desecration A murderous praise I vomit upon the holy  
altar Hooks of the embraced hang from the heavens  
Sucking the endeavors of pain Bleeding life from the  
lifeless As I soar on the tempests sharp wings Trading  
layers of flesh during intercourse Orgasm found in  
asphyxiation while losing life Tubes pumping fluid of  
evolution into a mutation for the birthing of the jackal  
Rising from these seas of my own blood As man's outer  
frame constricts with metal and tissue A scaffold of  
torture to be raised as an altar These interpretations of  
the surgical testament Lyin g naked licking these  
wounds of humiliation
